CIS-DataBridge
[DSIH*1.8*2]

INSTALLATION GUIDE

Installation Guide

Version Number 1.8   **May 2013**

Table of Contents

This DSIH patch addresses several issues found in Diet routine. These issues include NPO orders missing ODS segment, ODS and ZQT segments missing when multiple tubefeeding orders are placed under one order, incomplete diet instruction when a comment is excessively long or if it contains a carriage return, NPO order having a different comment, ODT having different description for early/late tray orders, and incorrect start and stop times in ORC segment.

Pre/Post-Installation Considerations

This build **requires** the following patches/builds:
      DSIH 1.8.

Installation Procedure

This build may be installed with users on the system.   It is recommended that users exit the CIS-DataBridge GUI while the install is taking place.

It is not necessary to disable any options in the DSIH package.

Installation will take less than 5 minutes to complete.

Software Retrieval:
The software is available from a DSS FTP directory. Sites will be provided the link, username and password to access the FTP site when they are authorized to install the software.

Below is a list of the files related to this package:

```
File Description                           File Name          FTP Mode
----------------------------------------------------------------------
CIS-DataBridge Patch 2 zip file w/build    DSIH_1_8P2.zip       (binary)
```

The DSIH_1_8P2.zip file contains the following files:

```
File Name                  Description
------------------         ----------------------------------------------
DSIH_1_8P2.KID             KIDS file to install one KIDS build:
                             DSIH*1.8*2
DSIH_1_8P2_ig.pdf          Installation guide
DSIH_1_8P2_PatchDesc.txt   Patch description with release notes
```

1. LOAD TRANSPORT GLOBAL

  Retrieve the DSIH_1_8P2.KID from the DSIH_1_8P2.zip file.

  Start up the Kernel Installation and Distribution System Menu
   [XPD MAIN]:

Edits and Distribution ...
Utilities ...
Installation ...

Select Kernel Installation & Distribution System Option: Installation
                                        ---
Load a Distribution
Print Transport Global
Compare Transport Global to Current System
Verify Checksums in Transport Global
Install Package(s)
Restart Install of Package(s)
Unload a Distribution
Backup a Transport Global

Select Installation Option: LOAD a Distribution

When prompted for "Enter a Host File:", enter the full directory
path where you saved the host file DSIH_1_8P2.KID
(e.g.,SYS$SYSDEVICE:[ANONYMOUS]DSIH_1_8P2.KID).

Enter a Host File: DSIH_1_8P2.KID

KIDS Distribution saved on May 9, 2013@13:02:52
Comment: Patch 2 for DSIH DATABRIDGE CORE COMPONENTS Ver 1.8

This Distribution contains Transport Globals for the following Package(s):
   DSIH*1.8*2
Distribution OK!
Want to Continue with Load? YES//
Loading Distribution...

   DSIH*1.8*2
Use INSTALL NAME: DSIH*1.8*2 to install this Distribution.

2. SELECT Optional INSTALLATION OPTION(s)

On the Installation Menu, the following are OPTIONAL:
a. Backup a Transport Global - This option will create a backup message of any routines
   exported with this patch. It will not backup any other changes such as DD's or templates.
b. Compare Transport Global to Current System - This option will allow you to view all
   changes that will be made when this patch is installed. It compares all components of this
   patch (routines, DD's, templates, etc.).
c. Verify Checksums in Transport Global - This option will allow you to ensure the integrity
   of the routines that are in the transport global.

3. INSTALL PACKAGE(s)

When prompted for Install Name, choose **DSIH*1.8*2**

Choose the **Install Package(s)** option to start the patch install.
